

Instructions for participants

Abstracts (max. one page A4) must be written in Word, Times New Roman 12 point, 1.5 spaced and 2.5 margins.

All presentations must be in French or English.

Abstracts must be submitted in MS Word 2003/2007 (.doc) through the online submission system :

<http://ishc2011.6te.net>

Title: Bold, 14 point, uppercase, centred.

Authors: on new line, 12 point, centred, the name of the presenter underlined.

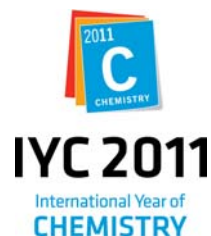

Addresses: on new line, *italic*, 11 point. Postal and e-mail addresses.

Key words: Max. 6, before the text.

Text: 12 point, single line spaced.

References: After text: Author(s), journal, volume, pp, (year).

Official activity under the umbrella
of the International Year of Chemistry

CALL FOR PAPERS

Symposium description

Following their 63rd General Assembly, the United Nations has proclaimed **2011** International Year of Chemistry.

The year 2011 will coincide with the 100th anniversary of the Nobel Prize awarded to Marie Curie, and an ideal opportunity to celebrate the role of women in science.

2011 also marks the anniversary of the founding of the IUPAC (International Union of Pure and Applied Chemistry), revolutionizing international scientific collaboration.

In 2011 therefore, the world will celebrate the chemical sciences and their contributions to knowledge, environmental protection and economic development.

In this regard, the Moroccan 8th National Meeting of Heterocyclic Chemistry (RNCH) is broadening its horizons as an International Symposium on Heterocyclic Chemistry.

This symposium is open to chemists, economists and companies interested in various aspects of this branch of chemistry.

The symposium is also an opportunity to present new chemical processes developed to meet the requirements of the 3rd millennium: new chemistry for sustainable development.

Themes

- ◆ New approaches to synthesis of heterocyclic compounds and study of their complexes
- ◆ Synthesis of new heterocyclic pharmaceutical and agrochemical compounds
- ◆ Drug design
- ◆ Organic materials and nanomaterials
- ◆ Chemistry: environmental, economic and societal prospects
- ◆ New chemistry for sustainable development
- ◆ Chemistry in a knowledge-based economy

Program

The scientific program will consist of:

- Plenary lectures
- Invited lectures
- Oral presentations
- Posters
- Exhibition stands

Registration form

Surname :

First Name :

Title :

Institution :

Address :

City :Country :

Tel. :Fax :

E-mail. :

I want to:

Attend the symposium :

Present a paper

Oral Poster

Title of presentation: :

.....

.....

The registration form must be submitted by e-mail to the Conference Secretariat :

e-mail : sich_fez_11@yahoo.fr
